EDUCATION

- **UNIVERSITY OF ENGINEERING AND TECHNOLOGY MAIN CAMPUS**
Bachelor of Computer Science
2023-2027
CGPA 3.7
PANJAB GROUP OF COLLEGES
- **FSC-Pre Engineering**
2021-2023
Grade A+
- **GOVT. MODEL GIRLS HIGH SCHOOL**
Matric (Computer)
2019-2021
Grade A+

SKILLS

- Coding
- Problem Solving Skills
- Proficient in C++ and C#
- WordPress
- Database (SQL)
- Web Designing
- HTML , CSS
- Debugging
- Content Development

CERTIFICATION

- **WEB DEV WITH REST BASE IN PYTHON**
2023 - 2024
UET , Main Campus Lahore
- **SQL INTERMEDIATE**
2023
HackerRank
- **ROBOTICS**
2021 - 2023
PANJAB GROUP OF COLLEGES
- **WORDPRESS**
2020-2021
DeGiSkills

ABOUT ME

As a second-year Computer Science student, I'm focused on improving my skills in C#, front-end development, and database management. My coursework has given me a strong foundation, and I'm eager to apply my knowledge to real-world projects. I'm also active in Graphic Design societies, enhancing my understanding of design principles. With a CGPA of 3.7, I'm dedicated to academic success and eager to seize opportunities that match my skill set. During a 1-month internship focused on C++, I was entrusted with a challenging task. I have finished 3+ projects, showing that I can get real things done quickly.

EXPERIENCE :

- **INTERNSHIP**
TECHNOHACK
- **GOOGLE DEVELOPER STUDENT CLUB:** Director of registration
- **ASSOCIATION OF COMPUTING MACHINERY:**
 - Team Public relation member
 - Team Coding member
 - Team Web designing member
- **Prodigy InfoTech**
Cyber Security Intern
- **Al-Khawarizmi Institute of Computer Science (Web-Dev Intern)**
- **Ustadam (odoo Intern)**

PROJECTS :

1. **Employee Management System (ASP.NET with SQL):**
 - Comprehensive solution for HR processes, boosting efficiency.
2. **Coffee Shop Website (HTML/CSS/JavaScript):**
 - Visually appealing platform for exploring menu options and placing orders.
3. **Health Caring Hub (CPP Console App):**
 - User-friendly application for managing health tasks efficiently.
4. **Maze Hunter Game (CPP Console Game):**
 - Exciting game with dynamic mazes and challenges.

ONGOING PROJECTS :

GUI Application for Students Management System:

- Developed in C# with graphical user interface argument parsing and error handling.

Hotel Management System Engineering:

- Built with HTML, CSS, and SQL.
- Includes reservation management and room availability tracking.

Daraz App Replica (C# Project)

- Applying OOP principles to ensure code modularity, reusability, and maintainability.
- Utilizing both SQL for database management and file handling for data storage.

EXTRACURRICULAR ACTIVITIES :

Participated in more than 1 coding competitions like Codex and ITEC, attended 6+ tech events such as DevFest, Tech Tahwar, and Future Fest, networked at career fairs, and engaged in discussions on AI integration in marketing strategies at summits and seminars.
